

Focus on the Future!

Week Ten

This week's bulletin is a PowerPoint film to watch produced by

Directions-Careers Ltd

This is a MUST Watch for ALL YEAR 10s!

<https://youtu.be/wV3OxIdNnR0>

This presentation has been produced for local students who are in year 10 and 11 and starting to thinking about their options when they leave school.

It gives a summary of all your options and compares the differences between them. It is very useful in preparation for attending college and sixth form open events.

You might find it useful to watch even if you are in younger year groups

You might have some questions about the differences between college and sixth form and what apprenticeships are- this will help explain all of those further.

Please email me if you need any help accessing these websites and I can explain further.

I am available Wednesday: leaves@ramseyacademy.com
