

8 January 2021

Dear Parents/Carers

As part of the Government's provision for home learning, they are helping support those who only have access to the internet via their mobile phone network. Families who have limited data packages and risk reaching this limit with accessing home learning resources may be able to get support if they meet the criteria.

Who can get this support?

Those who:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education (i.e. those learning from home)

What support can I get?
